THE SALISBURY FLORILEGIUM SOCIETY

Cookie Policy

Currently, our website does not currently use cookies. However, we will use them in the future.

We will use cookies to separate/distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site. We will alert you on screen when cookies are active as soon as you arrive on our site.

By continuing to use this site, you are agreeing to our use of cookies under this policy.

You may choose to refuse cookies by changing the settings of your internet browser, but this will cause certain functions of the site to fail. Alternatively, if you do not agree to our use of cookies, please discontinue the use of this website.

What is a Cookie?

A cookie is a small file of letters and numbers that we store through your browser or the hard drive of your computer. Cookies contain information that is transferred to your computer's hard drive, allowing our website to personalise your experience and remember your preferences.

Strictly necessary cookies

These are cookies that are required for the operation of our website. They include, for example, cookies that enable you to log into secure areas of our website, use a shopping cart, make online bookings for events or make use of e-billing services.

Analytical/performance cookies

They allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This helps us to improve the way our website works, for example, by ensuring that users are finding what they are looking for easily.

Please note that third parties (including, for example, advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which we have no control. These cookies are likely to be analytical/performance cookies or targeting cookies.

You may block cookies by activating a setting in your web browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our site or our site may not be able to function fully.
